About me

I'm a self-taught Senior Graphic Designer and Illustrator with over 7 years of experience in branding, UI design, and visual communication. I create visually strong, functional solutions that clarify brand identity, improve usability, and make communication more effective. My work starts with understanding context and goals, then translating them into clear, consistent, and scalable visual systems. I pay close attention to typography, layout, and color—always in service of the overall experience.

I've worked with teams across different industries, from cultural projects to digital products, delivering work that is both effective and user-focused.

Experience

Master Pipe | Aug 2025 – Present

Led the redesign and refinement of the company's visual identity system, including logo improvements, color systems, and development of the main brand book. Designed visual identities for sub-brands and product lines while producing catalogs, pricing materials, and marketing assets for domestic and international markets. Also enhanced industrial photography through advanced retouching and AI-assisted editing techniques.

Hamkelasi System | Feb 2023 – Mar 2025

Designed visual assets for a nationwide EdTech platform, including main website images, icon sets, and social content. Collaborated on video editing, photography, and design consulting to unify product branding across platforms.

Mizan Gostar | Aug 2020 – Jan 2023

Started as designer and promoted to art director in an IT firm specializing in programming education. Led visual branding, UI design, and exhibition graphics for multiple tech products and coordinated creative workflows.

Chandmahameh | Sep 2019 – Aug 2020

Created social media posts and commercial photography for children's products, boosting sales by 40%. Developed full product designs aligned with storytelling and visual appeal for a child-focused audience.

Zein Teb | Jan 2019 – Sep 2019

Handled end-to-end graphic design for a health tourism startup, from naming and logo design to catalogs and social media visuals. Built the brand's visual identity from scratch and supported all communication assets in a startup environment.

Codejudge Platform Catalog Design
(EdTech Project)

Banner Design

Social Media

Logo design and visual branding for Freelancesho, a social media platform dedicated to supporting freelancers.

Instagram highlight design

Ui

An AI-powered food recipe application designed to simplify recipe discovery, ingredient-based suggestions, and food-related social interaction. The interface focuses on intuitive usability, personalized user profiles, and a visually engaging experience while integrating AI-assisted features for recipe recommendations, cooking guidance, and smart ingredient exploration.

A multifunctional mobile app designed to facilitate digital purchases, advertising, and customer service. The interface prioritizes usability and brand color coherence.

Environmental Graphic

_____ Naghsh-e jahan square

Map illustration

- 1 Sheikh Lotfollah Mosque
- 2 Ali Qapu Palace
- 3 Keryas Hotel (Nizam al-Islam Historical House)
- 4 Abbasi Grand Mosque
- 5 Haj Mirza Teahouse (Azadegan Teahouse)
- 6 Museum of the Royal Kitchen
- 7 Qeysarieh Bazaar

Packaging

Illustration

Product illustration

A set of culturally-inspired illustrations created to mark Shiraz Day. The visuals were applied to various merchandise, including mugs and tote bags, blending local identity with contemporary design.

post card

A conceptual collection of postcard illustrations visualizing key metaphors from "Liberté" by French poet Paul Éluard. Each piece interprets themes of resistance, longing, and spiritual freedom through surreal and symbolic imagery — incorporating Persian letterforms as expressive visual elements.
